

We Will Make A Song Destroy

Rogue Wave

Did you know campfire
Spinning the sonnets
I did it so often
Well they sold me out
And called me a liar
How can I get up again?
How'd you get so soured?
May I remind you
You're billing what I make
Your ability is worn out
Objective expired
Well, I'll keep you mean and mad
I'll keep you mean and mad
I'll keep you mean and mad
I'll keep you mean and mad
Dir-ah, dir-ah, dir-ah, dir-ah
Dir-ah, dir-ah, dir-ah, dir-ah
We will make a song destroy

We will make a song destroy
We will make a song destroy
We will make a song destroy
Can't evolve past
Certain notes
No one knows me
You should know
Paint it all with
Certain strokes
Save us all with
Folks who know
To know
We will make a song destroy
We will make a song destroy
We will make a song destroy
We will make a song destroy
Destroy
Destroy
