

Only Trust Your Heart

[Stacey Kent](#)

Never trust the stars
When you're about to fall in love
Look for hidden signs before you start to sigh
Never trust the moon
When you're about to taste his kiss
He knows all the lines and he knows how to lie
Just wait for a night
When the skies are all bare and then
If you still care
Never trust your dreams
When you're about to fall in love
For you're dreams may quickly fall apart
So if you're smart
Really smart
Only trust your heart
Just wait for a night
When the skies are all bare and then
If you still care
Never trust your dreams
When you're about to fall in love
For you're dreams may quickly fall apart
So if you're smart
Really smart
Only trust your heart
