

Nocturnal Me

Echo & the Bunnymen

In an ice-capped fire
Of burning wood
In our world of wire Ignite our dreams of starry skies
And you and me
As realized our bigger themes Oh, take me internally
Forever yours
Nocturnal me Take me internally
Forever yours
Nocturnal me Do or die
What's done is done
True beauty lies
On the blue horizon Who or why
What's one is one
In pure disguise
Of vulgar sons Oh, take me internally
Forever yours
Nocturnal me Take me internally
Forever yours
Nocturnal me Whatever burns burns eternally
So take me in turns internally When I'm on fire
My body will be
Forever yours
Nocturnal me In an ice-capped fire
Of burning wood
In our world of wire Ignite our dreams of starry skies
And you and me
As realized our bigger themes Oh, take me internally
Forever yours
Nocturnal me Take me internally
Forever yours
Nocturnal me
