Give Me a Sign

22 Hertz

I can?t find no reason why keep moving on
I keep pushing I keep fighting
I keep . on myself and I got this . times before
So won?t you give me a sign
Someone give me sign
I keep . on myself and I got this . times before
Someone give me sign x2
Your blood is pumping
Gotta keep on running
Feat hurt keep searching
Something out of nothing
All the signs that you see
All the signs on the street
telling you just to leave
.luckily you were burn with a mind that completes
A brain that keep rightly when this other ?
Find yourself a privilege capture their attention
That you speak and . with the words
We are travelling the world . I swear we see the light
I think that?s a training of someone ready for a fight
I won?t slow down throwing punches at my . but I won?t go down

I am slipping I am . but I won?t fall down I am searching for ?
So give me a sign
I keep pushing I keep fighting
I keep . on myself and I got this . times before
Someone give me sign x2 I keep pushing I keep fighting
I keep . on myself and I got this . times before
Someone give me sign x2
Welcome to the mind of a moment ?.
Living romantic lives . we were thinking about
Since we plugged in the microphone
. of the friends of the candle light
I am chained to this microphone
I am wondering if we get to figure out the time
That we spent .
I am slipping I am . but I won?t fall down I am searching for ?
So give me a sign
I keep pushing I keep fighting

I keep . on myself and I got this . times before
Someone give me sign x2 I keep pushing I keep fighting
I keep . on myself and I got this . times before
Someone give me sign x2
