Stay

Vanilla Ninja

Don't you make me cry, baby
Don't you ever leave me
Losing you tonight
Takes me from heaven to hell
Dying is to find a fare-well
Even if you tried
You had never good to see me
It will hurt my soal if you keep telling me lies
Love is what I choose in my eyes
Touch my hand
And let's do it all again
Only drive when I feel abuse
Baby stay with me
Let the fire burn tonight
Oh, touch my skin
Loving you is not a sin
Baby I got more than dreams to lose
Don't you go away
Baby don't you blow out the light
Oh baby please stay
Don't close the door forever
Stay
We will share the dreams together
Stay
Baby if you leave me I will never ever take you back again
She is on your mind
I can see it in your blue eyes
Baby I'm so sure
She's only waiting for you
Tell me what you want me to do
Only what you want
Don't you keep me telling new lies
I just wanna know if she has taken control

Baby don't you love me at all
Touch me hand
Let me feel it all again
Let me know you are mine to choose
Cause I want you so

Baby I don't wanna fight
Oh, touch me skin
Loving you is not a sin
Baby I got more than dreams to lose
Don't you go away
Baby don't you blow out the light
Oh baby please stay
Don't close the door forever
Stay
We will share the dreams together
Stay
Baby if you leave me I will never ever take you back again
Stay, stay, stay
Stay, stay, stay
Stay, oh stay, if you leave me I will never ever take you back again
Oh baby please stay
Don't close the door forever
Stay
We will share the dreams together
Stay
Baby if you leave me I will never ever take you back again
Oh baby please stay
Don't close the door forever
Stay
We will share the dreams together
Stay
Baby if you leave me I will never ever take you back again
