

Undercover Lover

Emma Blackery

Advisory - the following lyrics contain explicit language:

When we first met you used to call me baby
You said you love me now i barley hear a word you're saying
And when your friends ask if you and me are dating
You're looking guilty shuffling your feet and hesitatingWell fuck that
I don't need that
Don't want it to get out
Well you should be damn proud
It's getting dark here sitting in your closet
with your other sekeltons like i'm some kind of secretDon't want to be your undercover lover
Don't want to be your friend and kiss you when the night ends
Don't want to be your dirty little secret
I want the world to know who's hotel you go to
Don't understand why you want to keep it quiet
If it was me i'd be starting fucking riots
If you can't handle who I am then get the fuck out
I'm not hanging around for something I could do withoutI will admit that from the very beginning
You said you didn't want to give a reason for gossiping
I just feel like a puppet with a mouthpiece
So won't you cut the strings so i can stop pretendingDon't want to be your undercover lover
Don't want to be your friend and kiss you when the night ends
Don't want to be your dirty little secret
I want the world to know who's hotel you go to
Don't Understand why you want to keep it quiet
If it was me i'd be starting fucking riots
If you can't handle who I am then get the fuck out
I'm not hanging around for something I could do withoutDon't want to be your undercover lover
Don't want to be your friend and kiss you when the night ends
Don't want to be your dirty little secret
I want the world to know
I want the world to knowDon't want to be your undercover lover
Don't want to be your friend and kiss you when the night ends
Don't want to be your dirty little secret

I want the world to know who's hotel you go to
Don't Understand why you want to keep it quiet
If it was me i'd be starting fucking riots
If you can't handle who I am then get the fuck out
I'm not hanging around for someone I could do without
