

# What Time Do You Call This?

## Elbow

Advisory - the following lyrics contain explicit language:

What time do you call this?  
What time do you call this?  
What time do you call this?  
What time do you call this?What time do you call this?  
I've been craning, bewildered all my days  
To now find your face  
Shining out of the crowdLove was just a word  
That friends didn't mention  
'Cause love was just a joke  
'Till it battered me senselessOhh, shrink with me, tower with me  
Wither with me, flower with me  
Endlessly follow me  
Chew me up and swallow meStay at least for now with me  
Drink and dance and row with me  
Tell me when I go too far  
Stay precisely where you are(What time do you call this?)  
Call me out on all my lies  
Hold my ticker with those eyes  
(What time do you call this?)  
Whether every winter while  
Check my spelling, ring my bell  
(What time do you call this?)  
Don't expect tender sex  
Check my spelling, ring my neck  
(What time do you call this?)  
Separate me from my breath  
Kiss me nearly half to death, oh  
(What time do you call this?)What time do you call this?  
What time do you call this?  
What time do you call this?  
What time do you call this?  
What time do you call this?What time do you call this?

What time do you call this?  
What time do you call this?  
What time do you call this?  
What time do you call this?  
What time do you call this?  
What time do you call this?  
What time do you call this?  
What time do you call this?  
What time do you call this?  
What time do you call this?  
What time do you call this?  
What time do you call this?  
What time do you call this?  
What time do you call this?  
What time do you call this?  
What time do you call this?  
What time do you call this?  
What time do you call this?
