Fall Apart

Deepfield

So don't turn your back on this
If all is lost then how did we find love?
And we could go back to the way it was
And sacrifice the way it could be, we could fall apartWe're caught up in pain
If all is lost, then how did we find love?
I found letters from better times
That you had balled up and thrown away for me to findAnd we could go back to the way it was
And sacrifice the way it could be
We could fall apart or we could fall in love againAnd we could go back to the way it was
And sacrifice the way it could be
We could fall apart or we could fall in love againIs this all in vain?
You stepped on my heart, you spit on my name
Did you really need to?
I made a promise I'd never be caught up in pain
It seems the only wayWe could go back to the way it was
And sacrifice the way it could be
We could fall apart or we could fall in love againAnd we could go back to the way it was
And sacrifice the way it could be
We could fall apart or we could fall in love againAnd we found love
And we found loveYou have taken the best of me
And turned it in to the rest of you, untrue
Like a moth to the flame that burns so clean, it's meI scream you have taken the best of me
Now all is lost but how did we find love?
How did we find love? How did we find?We could go back to the way it was
And sacrifice the way it could be
Yeah, yeahGo back to the way it was
And sacrifice the way it could be
We could fall apart or we could fall in love againAnd we could go back to the way it was
And sacrifice the way it could be
We could fall apart or we could
We could, we could fall in love
