

Pecan Pie

Golden Smog

As I walk along and stumble
Trains rumble in my head
As I breeze along and grumble
Think about you instead And a piece of pecan pie
And you that's all I want
Just a piece of pecan pie
And all I want is you Sometimes I get so hungry
Think about pie all day
Just a little whipped cream
Honey, I'm on my way With a piece of pecan pie
And you that's all I want
Just a piece of pecan pie
And all I want is you Just a piece of pecan pie
And you that's all I want
Just a piece of pecan pie
And all I want is you Now, don't you call me key lime
You're the apple of my eye
Don't you know I'll be fine?
Whenever you're by my side With a piece of pecan pie
And you that's all I want
Just a piece of pecan pie
And all I want is you And all I want is you, and all I want is you
And all I want is you, and all I want is you
