

# Fish out of Water

## OPM

Picture this, another Monday morning, you go to work  
But you don't know why your going,  
Everyday it's just the same, it's stupid and boring and it feels like you're going insane. Right now you don't  
understand it  
Slow down there's no reason to panic because one day your still gonna make it,  
But ya can't get that far when your a fish outta water my friend Marco polo don't you know that's how the game  
goes,  
Marco polo you're a fish outta water and I bet you didn't know Everyday life's getting harder and you're living  
like a fish outta water  
You can't breath or you, don't bother  
That's what its like when your a fish outta water You wake up one day look around and realize your losing time  
The tide has got you and you watch as your life starts to divide  
Thought you'd go with the flow and the next thing you know feels like your drowning  
Take a step back, check yourself, make sure you don't fuck it up, and then you do it again Right now you don't  
understand it  
Slow down there's no reason to panic because one day your still gonna make it,  
But ya can't get that far when your a fish outta water my friend Marco polo don't you know that's how the game  
goes,  
Marco polo you're a fish outta water and I bet you didn't know Everyday life's getting harder and you're living  
like a fish outta water  
You can't breath or you, don't bother  
That's what its like when your a fish outta water Now I'm underwater so deep that I'm blind feeling around in  
hopes  
That I'd find, inspiration  
Or something that would touch me  
Grounded so deep my feet can't even move me.  
Time runnin' in the rat race all day  
I'm thinking whose life is it anyway  
Feelin' worthless can't find the surface  
Swimmin' in my mind just to find the purpose  
And the tides all low and I'm all exposed  
Eyes froze makes me wonder bout this path I chose  
Nobody told you when to run, Bang Bang  
You missed the starting gun Everyday life's getting harder and you're living like a fish outta water  
You can't breath or you, don't bother  
That's what its like when your a fish outta water Everyday life's getting harder and you're living like a fish outta  
water  
You can't breath or you, don't bother

That's what its like when your a fish outta water
