March March Along

Naked Aggression

She walks march march along like he rest of the world
She cries she cries alone cause no one will listen
She said what's wrong with me I don't seem to fit in
I can't march march along march march alongThe parents said try to fit in be happy be like us
The teachers said there's something wrong a problem in your head
The doctor said I'll give her drugs to keep her from crying
The girl said I'm losing my mind I'm losing my mind
This girl became suicidalInstead of killing herself she ran away
Put out her thumb and hitch hicked down south
After a long fucked up trip she wound up in la
Started living in squats started living with her friends
She realized it was ok that she had never fit in
She knows now that she was not the crazy one
It was her parents, teachers, and doctors that were messed up
Now she saysCan't get to me in my head x4
