Down, Down, Down

Buck Owens

I'm goin' down down down goin' down down down got nobody to love me now
I'm a sorrow bound bound bound cause you're not around
Since you left I'm a goin' down down downWell I never thought my life would be so lonely
Hmm I never thought my head would hang so low
Well I love you my darling and you only
Don't know where you are but that's where I'd like to go
I'm goin' down down down...
[steel - guitar]
Well quarrels so many was your reason could it be you never gave us time
For in your heart you desire a new one if so then your heart is not with mine
I'm goin' down down down...
Since you left I'm a goin' down down down
