

# Down, Down, Down

**Buck Owens**

I'm goin' down down down goin' down down down got nobody to love me now  
I'm a sorrow bound bound bound cause you're not around  
Since you left I'm a goin' down down down Well I never thought my life would be so lonely  
Hmm I never thought my head would hang so low  
Well I love you my darling and you only  
Don't know where you are but that's where I'd like to go  
I'm goin' down down down...  
[ steel - guitar ]  
Well quarrels so many was your reason could it be you never gave us time  
For in your heart you desire a new one if so then your heart is not with mine  
I'm goin' down down down...  
Since you left I'm a goin' down down down
