Tente

MONORAL

While you fall asleep
It moves me
By the window's feet
It drools and crawls on knees
Why you want my niece?
It smothers me
Into the seaSlide all your troubles on my seat
I know how you fake it
Slide all your troubles in my dreams
I want you to fake itWhy do I pretend
It shows me
I'm not the one who shakes
And pulls it off my skin
Why you want my niece?
It melts with me
Into the seaSlide all your troubles on my seat
I know how you fake it
Slide all your troubles in my dreams
I want you to fake it
Slide all your troubles on my seat
I know how you fake it
Slide all your troubles in my dreams
I want you to fake it
