40 Deuces

White Wizzard

Out in the city
On streets of fire
I feel the power of the night
Fire and octane
Leather and metal
I'm burning under neon lightsI'm shifting gears to ride the sky
My metal heart will never die
Forged in the fires of Hell
My pistons fly
40 deuces running highDark dirty women
Whiskey and cold gin
Getting high and never coming down
My engines fire
Fueled by desire
Like lightning striking all aroundI'm shifting gears to ride the sky
My metal heart will never die
Forged in the fires of Hell
My pistons fly
40 deuces running highSet 'em up and knock 'em down
Rock the night away
Deal the cards, roll the bones
Lady luck will find her wayOoh, oh, oh, oh
Ooh, oh, oh, oh
Ooh, oh, oh, oh
Ooh, oh, oh, ooohhBuy the ticket, take the ride
Pedal to the floor
Gonzo lust for life, kick ass
Alive forever moreOut on the pavement
I'm burning rubber
Good time overdriving to the sky
Into the sunrise
I'm riding shotgun
Devil driving, never gonna dieI'm shifting gears to ride the sky
My metal heart will never die
Forged in the fires of Hell
My pistons fly
40 deuces running high
