

# I Am the North

## Grand Magus

Joined by the cry of ravens  
A chase in the winter cold  
Forest born son of storms  
Hated and scorned Free from the cage of morals  
Shadow of the ruling king  
The echoes of the savage call  
Roll across the land Truth and lie will join and die  
Grey ruler shows us how to fight  
The Wolf will rise  
The end of lies  
Corruption dies  
Free forever Burn with the lord of sorrow  
Claimed by the ship of nails  
Life and death - final breath  
Born into the grave  
Storm of an ancient fury  
Power beyond compare  
Serpent's flood - brother's blood  
End of times is here Truth and lie will join and die  
Grey ruler show us how to fight.
