

Rest of My Life

[Rilo Kiley](#)

there are worse ways for a guy to spend his time
than to sit and think of you
i think i'd marry you
just your smile
leaves me satisfied
though you're not mineso for the rest of my life
i'm gonna search for someone just like youand we tend the garden all day long
watching history unfold
and i'd be enough
and you'd be enough
and we'd grow oldso for the rest of my life
i'm gonna search for someone just like youfor the rest of my life
i'm gonna search for someone just like youyeah, for the rest of my life
i'm gonna search for someone just like you
