

# Missing Sibling

## Black Marble

I am writing for the info  
I remember the time and the place  
I can't remember your face  
Only for a moment  
It's easy to forget your place  
I might be the last known survivor  
In a diner they shot into space I've painted every mountain  
I've sketched out every choice  
I can't remember your voice  
Only for a moment  
And I just don't even know why  
I might be the last known survivor  
On an island as big as the night
