

# Until You Were Gone

**John Fullbright**

I didn't know I was in love with you  
Until you were gone  
I was just lonely, I just needed someone  
To share my nights with, to turn me on  
I didn't know I was in love with you  
Until you were gone I am not heartless, I am not thoughtless  
But I can be careless as a child  
I can blow caution in a smoke ring  
And disappear into the wild But I didn't know about silence  
Until you were gone  
The last show's over, the curtain is drawn  
I never saw so many sunsets, I never saw a single dawn  
I didn't know about silence  
Until you were gone The record you gave me  
I put it on  
The needle didn't jump this time, it played the whole song  
It sang about all, it cried about none  
I didn't know I was in love with you  
Until you were gone.
