

# Need You Now

[Chris Tomlin](#)

Time for me to step out of the water  
Time for me to just loose my hold  
And it's time for me to leave here all that I've hoped for  
Could You take me where I need to go I am waiting for Your love  
I am reaching for Your touch  
Lost without You, God, reach down  
I need You now, I need You now Time for me to step out of the water  
Time for me to just loose my hold  
And it's time for me to leave here all that I've hoped for  
Could You take me where I need to go I am waiting for Your love  
I am reaching for Your touch  
Lost without You, God, reach down  
I need You now, I need You now I am waiting for Your love  
I am reaching for Your touch  
Lost without You, God, reach down  
I need You now, I need You now I am waiting for Your love  
And I am reaching for Your touch  
Lost without You, God, reach down  
I need You now, I need You now
