

Hold Tight

Wicked Beat Sound System

Something always happens in the heat of the night

I been thinkin' bout it, for a while
All I knew like magic, you were there
And you took over me, and I didn't care

It can't be undone, don't tell a soul
I really don't believe it can harm anyone
It feels so good... feels so good...
Can hardly see in front of me
Cause I as blind and me

Hold tight
Feelin right
Mama's little angel is out tonight
Hold on
Nothing's wrong
I need to be with you
All night long

Wintertime I been in this each night
My whole experience
I was so down
And you pulled me through
How could I resist?
And I long for it
Though I know it's not right
It doesn't matter that I have to be
Somewhere tonight
Hang on to
The love we knew
The only time I felt alive
Was when I was with you

Hold tight
Feelin' right
Mama's little angel is out tonight
Hold on
Nothing's wrong
I need to be with you

All night long

Hold tight

Feelin' right

Mama's little angel is gonna fly

Hold on

Nothing's wrong

The simple life

Isn't for

Everyone

Something always happens

In the heat of the night...
