

# One More Year

## Killpretty

He was walking across the wire  
Holding a loaded gun  
Taking out every lightbulb  
One by one  
And she was building brand new walls  
To keep her safe and sound  
Sometimes a place to live  
Is just a place to hide  
One more year  
One more year  
Let's hold our breath  
And give it just  
One more year  
Well he was sparks and gasoline  
All fire and command  
The warmest comfort dies  
In the coldest hands  
And she was two steps from the edge  
But holding on somehow  
  
Even God himself couldn't blame her now  
One more year  
One more year  
Let's hold our breath  
And give it just  
One more year  
Now he's working on a plan  
Learning to make her smile  
Maybe a change of pace  
Or a change of style  
And she's walking across the wire  
Holding a loaded gun  
Hoping that what we feel  
Ain't what we've become  
One more year  
One more year  
Let's hold our breath  
And give it just  
One more year
