

Private Room Intro

Avant

{ Yeah, come back
Come on children
Yeah} Come with me
Into my private room girl
I got something to show you relax your mind
Sit back and unwind and let me
Spend some quality time with you
I really wanna be with you
Girl what you want me to do
Before this night is through
In my private room { Yeah, it's for the ladies
I want you all to enter into my private room
Think it's you and me
Know me for a while
Oh, want to do somethings like read your mind }
