Karma

Jessica Andrews

Out of nowhere you just wanna be free
Cut me loose forget all about me
Baby, tell me, have you ever heard
About this little five letter wordWhat comes around, goes around
I'm telling you baby, it's called karma
What goes up comes down, hits the ground
You're gonna find out
All about, all about, k-k-karmaGo on, go on, go have your day in the sun
Have a blast honey, have you some fun
But don't forget about that golden rule
What you do to others is gonna get done to youWhat comes around, goes around
I'm telling you baby, it's called karma
What goes up comes down, hits the ground
You're gonna find out
All about, all about, k-k-karmaLife is like a kaleidoscope
Changing colors every day
But there is one thing that I know
You can't mess around with your fate
(Go on, go on, go on)What comes around, goes around
I'm telling you baby, it's called karma
What goes up comes down, hits the ground
You're gonna find out
All about, all about, k-k-karmaI'm telling you baby, it's called karma
What goes up comes down, hits the ground
You're gonna find out
All about, all about k-k-karma
Yeah, it's called karma, k-k-karma
K-k-karma
