

One of These Days (Demo Version)

Within Temptation

I'm working hard from dusk till dawn
Wore my body to the bone
This hard feeling won't leave me alone
Feels so cold, oh bring me home It's one of these days
Just one of these days
That blows us away I walk this Earth
I walk this Earth
For what it's worth
I walk this Earth Fight like a lion to shake it off
Hunger I need to settle a score
With a ghost can't fight no more
In your footsteps I walk this Earth
