Cursed - Red Dot (Prod. PYRVMXDZ)

SIXSET

Catch me
Never stop cause I heard some fucking shots talking shit will get you mopped
Demon ways and evil plots
What's your name and what's your block
If you don't know how it gone rock
Deep inside the bushes see me scoping with that RED DOT
Off the top I ain't no buster motherfucker always on my grind, take my time all my shit don't ever fuck with mines
All you do is duck and hide when I ride up on your side, bring the chalk and the tape, cause it's just another homicide
When I blow this smoke I never choke, I never be broke, you acting like a joke, you better hope I don't roll up with the Hawk
All you do is fucking talk never be walking stalking me outside I creep at night because I might roll up and cause a fight
If you don't fuck with me you gonna feel that murder to that first degree you like diamond on the fuckin on the cemetery with no tag I'm the toe as I murder all these Buster's with my glow smoking dro you sniffing that blow you hitting this burn up on the low
