

# I Need Answers (Feat. Nikkiya)

Dizzy Wright

Ft. Nikkiya()

The images from this weekend's violence in the streets  
Stores being looted and riot police with dogs barking and charging protesters  
It all started with the fatal shooting by police of an unarmed black teenager  
The FBI has now opened an investigate of the shooting  
The shooting of eighteen year old Micheal Brown  
Has opened a wound in the community(Dizzy Wright)  
Neva thought today god would take my friend  
But Im dealing with it  
The police is at it again, and they killing the innocent  
They consider us gangsters if we dont walk around acting like brothers is feminine  
Yall run off adrenaline  
How ya obey the law by harassing a citizen?  
How we supposed to feel safe if ya always act scared of us?  
Somebody must have told ya a lie  
Not surprised that they calling us animals  
Living in poverty, tryna survive  
They say dont be mad at the cops, 96 percent killing is black on black crime  
They dont want us to be outraged  
But how we eva gon' change if we dont even try  
(  
Why, do they kill us when they feel uncomfortable?  
This shit is dysfunctional  
We lost one of my homies about a month ago  
Why, do we always feel like a target?  
I know its because of my skin, what would ya call it?  
I need answers man  
Please tell me something  
How out of the blue, the one in the black  
Get shot down fo nothing  
I just dont know, it feel like some nonsense  
Feel like some bullshit  
Please tell me something  
I need answers man  
All of the sudden, boys in the blue shoot boys who are black  
Shoot them fo nothing  
Where they do that at?  
I just dont know it feel like some nonsense  
Feel like some bullshit

Please tell me something  
I need answers man  
(2: Dizzy Wright)  
Its no science to it, they treat us bad cuz they see how we living  
Tell us take what was given  
The government been against us since the very beginning  
What if we took our guns off us and put em on yall  
And then asked god fo forgiveness  
Trying to get thru to the public, marching and screaming fo justice  
Only get us pushed to religion  
Hands up, dont shoot!  
We beg to be humans, we must got a snake involved  
If martial law can happen any minute  
Then what's an unpaid suspension if ya break the law?  
Killin' us isn't the answer  
Establish facts before the propaganda  
Look, these regular people with regular lives  
Badges should come with a body camera  
Why erry chance they get Why, do they kill us when they feel uncomfortable?  
This shit is dysfunctional

We need, answers(3: Dizzy Wright)  
What now, fight back, bust back till they scared of that  
Cuz Willie Lynch wrote a letter on controlling black people  
And we still ain't repent from that  
Might as well pull out the rope  
Im not pointing no fingers, Im blaming us both  
Its obvious we can stand fo the right things  
But media plays a problem with the things they promote  
Fighting in a lose lose battle, tryin' to raise peace  
But it don't come natural  
Walking in the streets, holding up signs  
And they throwing tear gas at us like the shit don't matter  
It was a peaceful protest before looters  
We the violent ones, but they the shooters  
Cant be teaching these kids ya gon' be mistreated by the police fo being a human  
I mean what kind of future is that?  
What it take to get back? Im a man, I know betta  
Maybe me and my folks should vote betta  
Or maybe I should get out this country

Cuz they aren't gon' eva respect us  
Until we start fuckin up all of their money  
But until then, pump yo fists if ya still in  
Cuz we will win, time to get at it()
