No Captures

Sodom

My attitudes
Will leave you paralyzed
Sadistic thoughts
That you will never realize my God
Don't wake me from this dreamYell of rage
Inordinate
Maliciousness
InsanityYou can't escape
You gonna pay the priceNo captures
Caught between the lines
No capturesInated proud
It's just a fight to cover
All your hopes
Praise me in the name of endless wars
Don't wake me from this dreamNot secure
Around the world
I am the one
Who'll bring you downI will descent
Until I reach the endNo captures
Caught between the lines
No capturesThis is my kiss
Within a bite
Brings darkness to your light
Help me to say the promised word good-bye
Don't wake me from this dreamI despise
You recognize
Close your eyes
The order to dieNo captures
No capturesI despise
You recognize
Close your eyes
The order to die
Nothing but
A pack of lies
Nothing but
DeceitNo captures
No captures
No captures
