

Destroy

AxeWound

Slash and burn in the fields of the mind.
Leave your doubts in a smouldering pile.
It eats away like a fucking disease.
And leaves you dead inside. There is a war that exists inside of me.
An internal fight. Murder all self doubt you've ever had.
You are your only master.
Set ablaze every piece of resolve
Ignites the fight inside. Destroy your fear.
Slaughter what holds you back.
Destroy your fear.
It's time to crush this world. Demolition of the psyche.
Eradication to the highest degree.
Annihilation of the temperament.
Leave it dead in the night. There is a war that exists inside of me.
An internal fight. This is a funeral of weakness.
Left in unmarked graves.
All regrets buried six feet deep.
Where they never betray. Destroy your fear.
Slaughter what holds you back.
Destroy your fear.
It's time to crush this world. Crush this world now!
