

Say Thank You

Jill Scott

I used to be stuck
I used to be stuck
How 'bout you
Inside a lie
That you know ain't near
Near the absolute truth
Feel it all in your membranes
And deep in your tissue
And you keep
You keep ignoring the signs
Listening to it happening to you again songs
And put your alarm on
Sleep
Inviting new dumb s***
And more loss of peacefulness
Everybody
Everybody can use a little help sometimes
C'mon you know things ain't moving right
Ask for correction
Ask for direction
Ask for protection
Since you want to feel like you're you
Inside Say thank you
Yeah
Say thank you
Yeah 'Cause you know your request is filled
You will see
So act accordingly
Live like you believe
And say thank you Open
Close
Kneel
Stand
Hands
In the air
Head down
Knees on ground
And a silent whisper
Out loud Somebody say thank you

Hey
You hear that
Yeah
Hey
Thank you
Thank you
I wish you would
Just say
Thank you
Thank youIt's the only thingThank you
Thank you
Thank you
Thank you
