

# Don't Forget About Us

## Mariah Carey

(Don't forget about us) Don't baby, don't baby, don't let it go  
No baby, no baby, no baby no  
Don't baby, don't baby, don't let it go  
My baby boy Just let it die  
With no goodbyes  
Details don't matter  
We both paid the price  
Tears in my eyes  
You know sometimes  
It'd be like that baby Now every time I see you  
I pretend I'm fine  
When I wanna reach out to you  
But I turn and I walk and I let it ride  
Baby I must confess  
We were bigger than anything  
Remember us at our best  
And don't forget about Late nights, playin' in the dark  
And wakin' up inside my arms  
Boy, you'll always be in my heart and  
I can see it in your eyes  
You still want it  
So don't forget about us  
I'm just speaking from experience  
Nothing can compare to your first true love  
So I hope this will remind you  
When it's for real, it's forever  
So don't forget about us Oh they say  
That you're in a new relationship  
But we both know  
Nothing comes close to  
What we had, it perseveres  
That we both can't forget it  
How good we used to get it There's only one me and you  
And how we used to shine  
No matter what you go through  
We are one, that's a fact  
That you can't deny  
So baby we just can't let  
The fire pass us by

Forever we'd both regret  
So don't forget about Late nights, playin' in the dark  
And wakin' up inside my arms  
Boy, you'll always be in my heart and  
I can see it in your eyes  
You still want it  
So don't forget about us  
I'm just speaking from experience  
Nothing can compare to your first true love  
So I hope this will remind you  
When it's for real, it's forever  
So don't forget about us And if she's got your head all messed up now  
That's the trickery  
She'll wanna have like you know how this lovin' used to be  
I bet she can't do like me  
She'll never be M-C Baby don't you, don't you forget about us  
Late nights, playin' in the dark  
And wakin' up inside my arms  
Boy, you'll always be in my heart and  
I can see it in your eyes  
You still want it  
So don't forget about us  
I'm just speaking from experience  
Nothing can compare to your first true love  
So I hope this will remind you  
When it's for real, it's forever  
So don't forget about us Late nights, playin' in the dark  
And wakin' up inside my arms  
Boy, you'll always be in my heart and  
I can see it in your eyes  
You still want it  
So don't forget about us  
I'm just speaking from experience  
Nothing can compare to your first true love  
So I hope this will remind you  
When it's for real, it's forever  
So don't forget about us Don't baby, don't baby, don't let it go  
No baby, no baby, no baby no  
Don't baby, don't baby, don't let it go When it's for real, it's forever  
So don't forget about us.
