

Do You Need

Tyrese

Peter gunz you know that cat with the Rolex
From the BX pushin' the GS Lex
Yes, playas still all him Lex 'cause he's flea X
Any borough in the Montero, headed to Queens on the Triboro
You see my shortie in the QB
Spend some QT with my cutie
Do my duty on the booty and only you see me
Up in the dark room sexin' with Tyrese and the CD
You make me happy and I know that it's true
There's somethin' about the things you do
Takes all my cares away
Makes me sacrifice everything I want in life
You could never ever find another
Lover who could love you like I could
And you would never, ever need another
If you let me love you
Do you need what I need? Someone who's true
No time or denyin' what I feel for you
So let's keep it real, like the way you make me feel
Don't make no mistakes girl, I'll be there for you
I tried to stop my feelin's but I can't get enough
Girl, I crave for your love
Don't stop this fantasy, let me know that you can be with me
Please relieve this agony
You could never ever find another
Lover who could love you like I could
And you would never, ever need another
If you let me love you
Do you need what I need? Someone who's true
No time or denyin' what I feel for you
So let's keep it real, like the way you make me feel
Don't make no mistakes girl, I'll be there for you
Do you need what I need? Someone who's true
No time or denyin' what I feel for you
So let's keep it real, like the way you make me feel
Don't make no mistakes girl, I'll be there for you
Now, you can find me on the red eye to L.A.
Posted on the celay, tellin' my man Greg find Kellay
Meet me in the tellay, it seems she got the hots
For this kid out in Watts, known for bustin' shots
Tyrese that's your man, tell that cat beat it
Honey rolls with Peter, his service no longer needed
Ballin' with playas on the West got me trippin'
In the Fox Hill mall trickin', my dogs think I'm flippin'
Do you need what I need? Someone who's true
No time or denyin' what I feel for you
So let's keep it real, like the way you make me feel
Don't make no mistakes girl, I'll be there for you
Do you need what I need? Someone who's true
No time or denyin' what I feel for you
So let's keep it real, like the way you make me feel

Don't make no mistakes girl, I'll be there for you
