

You're Gonna Love This

3OH!3

yeah im standing outside the bar like a fish out of water
and im sorry to bother you miss youre just so fine that i gotta
because im like that, cuz im like that
im gonna buy you all a drink and ill be right back
drinks at the bar
with the friends there
standing so far
but it feels near
if only she looked
i could take her home with me
ill buy you a round, if you come close
so turn up the sound, turn the lights down
give me a chance
i will take her home with me
youre gonna love this
yeah i dont know whats happening
and i swear to your honor that in my column girl was biting on my lips like jeffery dahmer
yeah its like that, yeah its like that
i just drove her back to my place for a night cab
drinks at the bar
with the friends there
standing so far
but it feels near
if only she looked
i could take her home with me
ill buy you a round, if you come close
so turn up the sound, turn the lights down
give me a chance
i will take her home with me
youre gonna love this
yeah you know the flashing lights have got a hold on me
yeah im high on the feeling there's nothing wrong with me
la la la...
oh yeah, youre gonna love this
yeah you know the flashing lights have got a hold on me
yeah im high on the feeling thats nothing wrong with me
yeah you know the flashing lights have got a hold on me
yeah im high on the feeling there's nothing wrong with me
youre gonna love this
