

Casualty

Lovehammers

Nobody's safe round here no more
Drag this lonely boat from the shore
Cut the ropes that bind me, to save the ones behind me
Nobody's safe around here no more

No time to wait and see, I live this life for me

Rise and fall, climb the walls
Won't stop until I have it all
Persistitance, resistance, one man can make a difference
The battles iniside of me, the fight's begun but not yet won
And I won't become, one more casualty

The need to find my destiny
Drop my anchors, set me free
You don't know how it feels, till your hands on the wheel
Drop my anchors set me free

Rise and fall, climb the walls
Won't stop until I have it all
Persistitance, resistance, one man can make a difference
The battles iniside of me, the fight's begun but not yet won
And I won't become, one more casualty

Nobody says we're free
We're drifiting throught the questions
Swimming for the answers
T rying to keep my sanity, till I reach my destination, and bring you here with me
And I'll make you believe
I have control, but if I lose myself,
How can I save you?

Rise and fall, climb the walls
Won't stop until I have it all
Persistitance, resistance, one man can make a difference
Rise and fall, climb the walls
Won't stop until I have it all
Persistitance, resistance, one man can make a difference
The battles iniside of me, the fight's begun but not yet won
And I won't become,

The fight's begun but not yet won
And I won't become,
One more casualty
