

# Battered & Bruised

**Buju Banton**

one life to live Rept xtake a look at me tell me what do you see  
you dont have to love me but am not your enemy  
and am not amused by your verbal abuse  
you think you are clever what a sorry excuse  
playing with the minds of people dangerous games they play  
man if you are not careful they lead you a stray  
protect your soul by any means necessary  
take nothing for granted  
you may be sorry ooohhh  
one life u've got to live  
come on lets us live it right  
if u're in bed with the devil  
then you ave made your choice  
becauseChorus  
we've been battered and bruise (Rept 1)  
we still nursing wounds  
battered and bruised still nursing my wounds  
battered and bruised yea still nursing my wounds  
battered and bruised yeah still nursing woundsVerse 2  
we face all form of human segregation  
who use to ask me ware i am from  
they brought us here in shackles and chain  
and throughout the centuries its nothing but pain
