

# Cool Drink of Water

Brooks & Dunn

I bought my girl a diamond, it was our engagement ring  
She took it to a pawn shop like it didn't mean a thing  
She went right out and bought herself a brand new party dress  
She'll be looking good tonight when we go out I guess  
She's a cool drink of water  
She's done hocked the ring I bought her  
She might be the devil's daughter  
But she's a cool, cool drink of water  
I took her to a night club where we used to go a lot  
The beer is cold and frosty and the band is blazing hot  
I went back for a refill and this guy walked up and said  
There's a blonde out on the dance floor turning everybody's head  
She's a cool drink of water  
And I should run yes, I probably oughta  
She might be the devil's daughter  
But she's a cool, cool drink of water  
Well I'd had one too many so she took my keys to drive  
She said we'll have more fun tonight if we get home alive  
Well that copper clocked her doing ninety in a twenty zone  
But she didn't get a ticket just the number to his phone  
She's a cool drink of water  
And that old cop, he really thinks he caught her  
And he just met the devil's daughter  
And she's a cool, cool drink of water  
Yeah she's a cool drink of water  
And I should run yes, I probably oughta  
She might be the devil's daughter  
But she's a cool, cool drink of water
