Agreement

Kitaro

Watching the world from our window of life
Can we see all there is that is real, that is right?
To the distance so far from our true understanding
Making us want more, making us see lessThe fire
Making me clean, making me fly
Spinning me 'round and 'round
Spinning me 'roundThe fire within your eyes
This mystic time I've known before
Once before the flame within my heart
Agreements made are now realized like beforeSpeaking of worlds driven far, far apart
How the innocence crushes the nature of things
To the point that we lose all we're trying to gain
Making us want more, making us see lessThe fire
Making us clean, making us fly
Spinning us 'round and 'round
Spinning us 'roundThe fire within your eyes
This mystic time I've known before
Once before the flame within my heart
Agreements made are now realized like beforeThe fire
Making us clean, making us fly
Spinning us 'round and 'round
Spinning us 'roundThe flame
Making us clean, making me fly
Spinning me 'round and 'round
Spinning me 'roundAgreements of trust
Under the power of love we see
Agreements of faith
Under the power of love we know
Agreements of truth
Under the power of love we feel
Agreements of love
Under the power of love we seeAgreements of liberty
Under the power of love we know
Agreements to set you free
Under the power of love we feel
Agreements of trust
Under the power of love we see
Agreements of faith
Under the power of love we know

Agreements of truth
