

Doctor, Doctor

The Who

Doctor, there's something wrong with me
My health is not all that it used to be
My heart is out of beat, I got chokers on my feet
My eyesight's getting dimmer, I can't see

Doctor thanks for seeing me today, I'm glad,
I've got every sickness there is to be had
I had whooping cough last month
And today I've got the mumps
And tomorrow I'll catch chicken pox as well.

[Chorus]

Doctor doctor doctor make me well
I've not got long to go now I can tell
Doctor doctor doctor make me well
I've not got long to go I can tell
I've not got long to go I can tell

Those pills I took have no effect at all
Just the other day I had a nasty fall
And I think I broke my jaw when it hit the kitchen floor
And I'm shrinking last week I was five foot four

I've been getting shivers lately, is it flu?
I know the bug is going round, what can I do?
It's about to pick on me, I've still got the other three
Do you think I caught smallpox I'd get flu?

[Chorus]

Do you think it's time that I made out my will?
I'll leave everything to you to pay my bill
Just how long is there to go
Please tell me I want to know
But on second thoughts don't tell me, I'm too ill.
