Come On

Beerzone

B2K Omarion, Lil Fizz, Raz B, J Boog
Come on, come on
Leave em alone
Omarion, first verse
Peek-a-boo, little fine lady I see you
Little man knows what he wanna do
After school, you know that it's okay
Truth or dare, I won't play
Baby if you're scared
Sweetheart let him go so that I will know
Come on, I know what you want
No need to front
Come on, leave him for me
What a pretty little thing like you
Gonna do with a fool like him
When you could be with me?
Come on, wait a minute
Come on, I know what you want
No need to front
Come on, leave him for me
What a pretty little thing like you
Gonna do with a fool like him
When you could be with me?
Come on, wait a minute
Hide and seek if I come catch you
Would you be with me baby
Can you feel my flow
If not, you can go baby, that's fa sho
I'll satisfy
If you give me the time and recognize
Sweetheart let him go, so that I will know
Come on, I know what you want
No need to front
Come on, leave him for me
What a pretty little thing like you
Gonna do with a fool like him
When you could be with me?
Come on, wait a minute
Come on, I know what you want

No need to front
Come on, leave him for me
What a pretty little thing like you
Gonna do with a fool like him
When you could be with me?
Come on, wait a minute
Come on, I know what you want
No need to front
Come on, leave him for me
What a pretty little thing like you
Gonna do with a fool like him
When you could be with me?
Come on, wait a minute
Omarion, J Boog, Raz B, Lil Fizz
You feel me
B2K on the track, baby
Blowin' up
Here we come
Year 2000
Dance, dance, dance, dance
Dance, dance, dance, dance
Get him out your life
Baby don't be a fool
Five minutes with me
No other guy will take my place
Don't be dumb
He's playin' in your face
Get with me, baby
Don't leave me
No need to front I know what you want baby
What a pretty little thing like you
Gonna do with a fool like him
When you could be with me?
Come on, wait a minute
Ooh I'm alone
Leave him for me
What a pretty little thing like you
Gonna do with a fool like him
Leave him for me
Girl I want you, girl
Come on, wait a minute
What a pretty little thing like you
Gonna do with a fool like him
When you could be with me?
Come on, wait a minute
