

# Come On

## Beerzone

B2K Omarion, Lil Fizz, Raz B, J Boog

Come on, come on

Leave em alone

Omarion, first verse

Peek-a-boo, little fine lady I see you

Little man knows what he wanna do

After school, you know that it's okay

Truth or dare, I won't play

Baby if you're scared

Sweetheart let him go so that I will know

Come on, I know what you want

No need to front

Come on, leave him for me

What a pretty little thing like you

Gonna do with a fool like him

When you could be with me?

Come on, wait a minute

Come on, I know what you want

No need to front

Come on, leave him for me

What a pretty little thing like you

Gonna do with a fool like him

When you could be with me?

Come on, wait a minute

Hide and seek if I come catch you

Would you be with me baby

Can you feel my flow

If not, you can go baby, that's fa sho

I'll satisfy

If you give me the time and recognize

Sweetheart let him go, so that I will know

Come on, I know what you want

No need to front

Come on, leave him for me

What a pretty little thing like you

Gonna do with a fool like him

When you could be with me?

Come on, wait a minute

Come on, I know what you want

No need to front  
Come on, leave him for me  
What a pretty little thing like you  
Gonna do with a fool like him  
When you could be with me?  
Come on, wait a minute  
Come on, I know what you want  
No need to front  
Come on, leave him for me  
What a pretty little thing like you  
Gonna do with a fool like him  
When you could be with me?  
Come on, wait a minute  
Omarion, J Boog, Raz B, Lil Fizz  
You feel me  
B2K on the track, baby  
Blowin' up  
Here we come  
Year 2000  
Dance, dance, dance, dance  
Dance, dance, dance, dance  
Get him out your life  
Baby don't be a fool  
Five minutes with me  
No other guy will take my place  
Don't be dumb  
He's playin' in your face  
Get with me, baby  
Don't leave me  
No need to front I know what you want baby  
What a pretty little thing like you  
Gonna do with a fool like him  
When you could be with me?  
Come on, wait a minute  
Ooh I'm alone  
Leave him for me  
What a pretty little thing like you  
Gonna do with a fool like him  
Leave him for me  
Girl I want you, girl  
Come on, wait a minute  
What a pretty little thing like you  
Gonna do with a fool like him  
When you could be with me?  
Come on, wait a minute
