

Treading in Dog Poo Is a Rainbow of Regret

David Thurlow

Black is the color of the dog that walked into your front yard and dropped a steaming log
White was the color of your shoe before you stepped in that pile of doggy poo

Learn Your colors by treading in dog poo
It might be the only good thing you can do
You could get annoyed or you could get upset
cause treading in dog poo is a rainbow of regret

Brown is the color of the stick that you tried to use to give that doggy doo the flick
Yellow is the color of the bus where all of the kids can smell something suss

Learn Your colors by treading in dog poo
It might be the only good thing you can do
You could get annoyed or you could get upset
cause treading in dog poo is a rainbow of regret

Orange is the color of the room where you will sit all day and try to hide your pooey shoe
Red is the color of your face when all of your friends point at your shoe in disgrace

Learn Your colors by treading in dog poo
It might be the only good thing you can do
You could get annoyed or you could get upset
cause treading in dog poo is a rainbow of regret

Blue is the color of your friends when they all stop breathing and wish the stink would end
Green is the color of the girl who put her hand in the poo and now she wants to hurl

Learn Your colors by treading in dog poo
It might be the only good thing you can do
You could get annoyed or you could get upset
cause treading in dog poo is a rainbow of regret
