

A Better Life

Dream Theater

As fearless leader of the Ravenskill militia
the blood of warriors flow throughout my veins
my brother's gift remains my secret ammunition

it is our hope, our pride

A catalyst for change
still the fires of revolution
burning through my eyes
on this .. road to freedom
his our one and only guide

for many years i've seen
our people starve and suffer
how many more will die
before we stand and fight?

They ask me ... can things be any tougher?

the answer's no surprise

yes a better life

Now the fires of revolution
will burn forevermore

a .. future

it's one worth fighting for

We all long for a better life
like a dream that can be denied
this is the moment

now is the time

Freedom if we live or if we die!

[solo]

I shall give him a better life
I swore this vow to my dying wife

sure she will not survive
peacefully she slept away
the meaning in my life

was born that day
and so I found this tragic
carry on with this crusade

it is my fate!

... you live the life of misery and pain

... I'll never meet your
