

# V

## The Nova Echo

shake it up, burn it out, turn it up, turn it out loud  
break it up, send it out, tear it down, sound it out now  
free it up, singled out, washing up, burn up the clouds

and the scholars are losing sleep  
over time we forget who we are  
do you feel like you're out of reach  
is it spring every time that you fall

dizzy yes, opened up, shattering straight through the heart  
cover up meaningless simplistic pain overall  
open sky, ocean view, long lasting pressure will fall
