Mountain

Good Charlotte

WhoaAll these dreams and all these plans
I built them all with these two hands
Everything, Ive realized my dreams
The city lights shine down
And they blind me sometimes
But through it all I was lost but I found my waySo tell me what you want
'Cause I would give you anything
Tell me what you need and Ill go get it
Id give up all these dreams
To have you in my arms right now
Id give up everything and Id forget itI wasn't on a mountain
When it came to me
All my lifes been wasted
Chasing shallow dreamsSo here we are, let me lift you up
And show you this world over me
And all these things
What I've gained and what I've seen
It cant compare to that love
That you could give to meSo tell me what you want
'Cause I would give you anything
Tell me what you need and Ill go get it
Id give up all these dreams
To have you in my arms right now
Id give up everything and Id forget itI wasn't on a mountain
When it came to me
All my lifes been wasted
Chasing shallow dreamsYears go by and nothings slowing down the time
Years go by and then theyre wasted
All this time, I thought that I gained everything
If youre not mine, Im so emptyI wasn't on a mountain
When it came, when it came to me
That all my lifes been wasted
Chasing shallow dreamsSo please come back to me
I'm right here waiting
So please come back to me now
