

Hey Hey You You

Soluna

Hey, hey, hey, hey
I don't wanna be the one you touch
I don't wanna be the one you love
Never gonna be the one you need
These are things that I can't be
Not denying that I sense
Something more than just friends
But I've already got a man
So when I'm standing next to you
Gotta respect that he's not you
And understand that I can't do
What you're askin' me to
Hey, hey, you, you
I figure it's true, true, yeah, yeah
You know what you do to me, it's crazy
I'm someone else's baby
Hey, hey, you, you
You're makin' me hot, hot, stop, stop
Before we go farther than I want to
Hey you, don't make me choose
You're gonna lose
Maybe in a different place or time
I woulda made you mine
But the reality is this
I love the man I'm with
Yes, I know there's energy
I felt between you and me
But if you're gonna make me choose
Between him and you
There's no contest
Between his love and your bed
You see, I thought it over but

There really is no choice
Hey, hey, you, you
I figure it's true, true, yeah, yeah
You know what you do to me, it's crazy
I'm someone else's baby
Hey, hey, you, you

You're makin' me hot, hot, stop, stop
Before we go farther than I want to
Hey you, don't make me choose
You're gonna lose
Hey you, I feel you, you know it's true
You're makin' me so crazy
I'm someone else's baby
Hey you, yes, you
Hey, hey, you, you
I figure it's true, true, yeah, yeah
You know what you do to me, it's crazy
I'm someone else's baby
Hey, hey, you, you
You're makin' me hot, hot, stop, stop
Before we go farther than I want to
Hey you, don't make me choose
Hey, hey, you, you
I figure it's true, true, yeah, yeah
You know what you do to me, it's crazy
I'm someone else's baby
Hey, hey, you, you
You're makin' me hot, hot, stop, stop
Before we go farther than I want to
Hey you, don't make me choose
You're gonna lose
