Try My Love

Mint Condition

Taste of the Mint
All I need is a positive lady in my life
I think it's you that I can't do without
And honey you'll see
What my actions are about
Honey you know there should be no doubt
Will you try my love
Will you try my love
Will you try my love
I'll never let you down (down, down yeah yeah)
Will you try my love
Will you try my love
Will you try my love
I'll never let you down
What will it take for you to make that final dip?
Am I too brash?
I'm moving a little too fast? (Too fast)
Sorry, honey, but being timid is in the past
Now because (Now because)
We'll make this last
Will you try my love
Will you try my love
Will you try my love
I'll never let you down (down, down yeah yeah)
Will you try my love
Will you try my love
Will you try my love
I'll never let you down
Will you try my love
Will you try my love
Will you try my love
I'll never let you down (down, down yeah yeah)
Will you try my love
Will you try my love
Will you try my love
I'll never let you down
My love (wooo)
My love
My love (here it is)

My Love (it's right here)
My love (Come and get it)
My love
My love
My
Will you try my love
Will you try my love
Will you try my love
I'll never let you down (down, down yeah yeah)
Will you try my love
Will you try my love
Will you try my love
I'll never let you down
Will you try my love
Will you try my love
Will you try my love
I'll never let you down (down, down yeah yeah)
Will you try my love
Will you try my love
Will you try my love
I'll never let you down
Will you try my love?
Give my love a try
Your love is all I want
And you know the reason why
(Why is it so hard to see)
It's just a perfect illustration
Of a relation
Just given to temptation
One last question on my mind
So will you try?
So why can't you see
I see it in you eyes, girl
