Nymphomania

Inkubus Sukkubus

Eyes of Love and Eyes of Fire
Hearts of Lust and Desire
Dancing, jumping, laughing, raving
Driven by a sexual craving
Here they come with love and flowers
With their songs and their dark powers
Bodies naked, hot and writhing
Belladonna wine embibing
Here they come datura dreaming
Out their minds in madness screaming
Wild spirits from the dreamworld
Nature spirits from the dreamworld
With the Nymphs you are free
In the fire of ecstasy
In a dream of sexual love
In Hell below and Heaven above
Boy meets nymph the sacred story
Told again for all it's glory
She's so wild, he can't tame her
Sex and drugs, who can blame her
He's the fingers, she's the matches
She's the fire, he'll be the ashes
He is hers for the taking
Love is hers for the faking
Forget the future come and kiss
On the Poison Lips of Bliss
Let them sing you to your death
Let them sing you to your death
