

# On the Floor

Brian McKnight

The bed gives  
The cupboard might break underneath you  
Hard as I try, ooh  
The table will shake  
Could break a leg when I do, what I do  
I'm all about mine Consider the love we made  
When pleasure can be found  
In and all around  
The right place is on the floor  
Why don't we get down on the floor?  
I won't leave you wanting for more  
If we get down on the floor  
On the floor, yeah Comfortable spot when I get you hot  
A place to lay your head  
Was it Socrates who said, "Good to the last drop, lady"  
Ohh, you're so sweet from your head to your feet  
Face is turnin' red  
Now my appetite's away Consider the love we made  
When pleasure can be found  
In and all around  
The right place is on the floor  
Why don't we get down on the floor  
I won't leave you wanting for more  
If we get down on the floor  
On the floor, yeah When you're satisfied  
That's when I'll give you more  
It's gonna rain, let it pour  
And if you're gonna stay  
And you're willing to play  
It's time that we openly, honestly  
Get on the floor On the floor, yeah  
On the floor, yeah  
On the floor, yeah  
On the floor  
Floor, on the floor, yeah  
On the floor  
On the floor, yeah
