## Descendents

I don't wanna move  
I'll just sit here in my living room  
And see what's on the tube  
While I'm hanging out with you People knock on my door, ringing my phone  
Telling me the things I gotta get done today  
To satisfy them, but what about me? Lately I've been wishing I was brain dead  
No responsibilities in my head today  
Maybe we'll see what's on TV Doing nothing, having fun  
Off to bed to get things done  
I'm not lazy... I'm in love I don't wanna move  
I'll just sit here in my living room  
And see what's on the tube  
While I'm hanging out with you People pressing my flesh, taking my time  
They don't know a thing about my life with you  
I'm trying real hard - it's hard not to care  
'Cause all I ever really want to do  
Is sit around doing nothing with you, because  
Nothing's only fun when you're there "Mad about you" at dinnertime  
"Seinfeld", "Simpsons", "So-called life"  
Seen the reruns 20 million times I don't wanna move  
I'll just sit here in my living room  
And see what's on the tube  
While I'm hanging out with you All I wanna do  
All I wanna do  
All I wanna do  
Is do nothing with you
