

# Flow

## Boyz II Men

I don't even know why I'm trippin'  
Cause you gonna do your thing so it don't make a difference  
And I ain't gonna change, Im'ma stay on this mission  
A big backyard, few cars, and a kitchen  
I wanna put you in it, takes a minute for the pop off  
I bet you look cute in the coupe with the top off  
If you ain't gonna ride this train you should hop off  
Cause if it ain't real baby girl it's a knock off  
Oh I swear you're the one that I wanted  
That's why I'm like girl, just live in the moment  
Cause I ain't never felt this way about a woman  
You play a big part in the man I'm becoming  
[Chorus:] So baby please  
If you really wanna leave, baby, now is the best time (now is the best time)  
Cause I can't make you believe. I done gave you my best line (gave you my best line)  
Cause all I got right now is a flow  
And I can see that you need more  
But I can play you 6 in a row, right now (right now)  
All I got is a flow  
All I got is a flow  
Is it good enough for you, girl?  
Please don't miss what I'm saying  
I'm far from a kid and I'm so not playin'  
Never felt a heart so cold in my lair  
You throwing in a towel right before the weigh in  
You don't even see that I'm due for a knockout  
I'm puttin' in work, it's too early, to clock out  
So shorty lay back, be cool, we gonna rock out  
This thing is too loud and it's so hard to block out  
  
Feeling like a 747 fly away  
If love is blind come and take my sight away  
I ain't got to see, I can feel that you want it  
So please don't be afraid of whatever we becoming, becoming yeah.  
[Chorus:] If you really wanna leave, baby, now is the best time (now is the best time)  
Cause I can't make you believe. I done gave you my best line (gave you my best line)  
Cause all I got right now is a flow  
And I can see that you need more  
But I can play you 6 in a row, right now (right now)

All I got is a flow  
All I got is a flow  
Is it good enough for you, girl?  
And Im'ma let it breathe  
Im'ma let it breathe like the breeze through the tree tops  
And Im'ma let it breathe  
Im'ma let it breathe, do you love me or love me not? yeah  
Im'ma let it breathe  
Im'ma let it breathe, breeze like the tree tops  
Im'ma let it breathe  
Tell me do you love me?  
[Chorus:]If you really wanna leave, baby, now is the best time (now is the best time)  
Cause I can't make you believe. I done gave you my best line (gave you my best line)  
Cause all I got right now is a flow (now is a flow)  
And I can see that you need more  
But I can play you 6 in a row, right now (right now)  
All I got is a flow  
All I got is a flow  
Is it good enough for you, girl?
